

Boyes Hot Springs has a lively history, integral to the fabric of the Sonoma Valley. Formerly the center of a great resort area, it hosted thousands of visitors during its heyday. There were dozens of resorts, from small motor courts to the grand Sonoma Mission Inn. The Boyes Bath House boasted the second largest indoor swimming pool in the country. And, for many years, the area was a training ground for professional football and baseball teams such as the Cleveland Browns and the San Francisco Seals.

After the demise of the passenger railroad, the area still thrived with the construction of the Golden Gate Bridge and the rise of the automobile. Boyes Springs real estate man L.E. "Bud" Castner was one of the first directors of the Golden Gate Bridge District.

In the 1960s, as the resorts faded, Boyes Hot Springs faded a bit as well. Community pride, however, never waned. The area became attractive in the 1980s and 1990s to home buyers who were priced out of the Bay Area market. Attracted by its rural charm, they purchased its large stock of charming cottages to rehabilitate. At the same time, the population of Mexican immigrants grew, attracted principally by the grape growing and wine businesses.

To old timers and new residents alike, the post office is the center of the community. Since most of the surrounding streets receive no mail delivery, residents make a daily trip to the post office where they catch up on the latest local news with their friends and neighbors. The immigrant population relies on it for communication with their families back home. The postal workers are personally known to all, a part of the broader community family.

Mr. Speaker, the community is hosting a celebration to honor this anniversary. In the words of one of the organizers, Michael Acker of the Springs Community Alliance, it will "salute the past, show appreciation for service, and look to the future with hope." Please join us in honoring the centennial of the Boyes Hot Springs Post Office.

IN HONOR OF DR. LARRY EUGENE RIVERS, PRESIDENT OF FORT VALLEY STATE UNIVERSITY

HON. SANFORD D. BISHOP, JR.

OF GEORGIA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, July 6, 2011

Mr. BISHOP of Georgia. Mr. Speaker, I rise today to honor a great leader in higher education in Georgia—someone who has been committed to improving the lives of young men and women throughout his career. Dr. Larry Rivers recently marked his fifth anniversary as the President of Fort Valley State University (FVSU), and what a remarkable 5 years it has been.

Dr. Rivers was born in the suburbs of Philadelphia and graduated from what was then Fort Valley State College. After earning a master's degree in history from Villanova University, and a Doctor of Arts degree in history from Carnegie-Mellon University, he went on to teach at Florida A&M University for more than 20 years and earned the rank of "distinguished university professor," one of only two on the campus.

He returned to his alma mater in 2006, and in 5 short years, FVSU has experienced a remarkable turnaround under Dr. Rivers' leadership. Student enrollment is at the highest point in the 115-year history of the university. Since 2006, the university invested \$160 million in new construction projects that are transforming the campus with additional buildings to accommodate more students and new research facilities. And FVSU now offers new undergraduate courses and master's degrees in fields such as biotechnology, teaching, and early childhood development that will provide the education and training our future leaders need to compete in a 21st century economy.

Because of FVSU's progress, the Southern Association of Colleges and Schools recently reaffirmed the university's accreditation, and the school was ranked 25th on U.S. News and World Report's list of "America's Best Black Colleges."

To meet the demands of FVSU's growth, the City of Fort Valley has modernized its infrastructure through several rural development grants and wastewater reclamation projects. These fundamental improvements will attract new businesses to Southwest Georgia that are looking to take advantage of the talented individuals FVSU is producing each and every year.

Dr. Rivers has earned well-deserved praise for his efforts at FVSU. Georgia Trend magazine recognized him as one of the "100 Most Influential Georgians" and one of Georgia's "Top 25 Leaders" in its 25th Anniversary issue. While the transformation at FVSU is remarkable, I know Dr. Rivers will not rest until FVSU is ranked 1st.

As Thomas Jefferson once said, "Universities are based on the illimitable freedom of the human mind." I am confident that under the leadership of Dr. Larry Rivers, we will continue to expand the minds of our young men and women and educate the leaders of tomorrow.

DEPARTMENT OF DEFENSE APPROPRIATIONS ACT, 2012

SPEECH OF

HON. C.W. BILL YOUNG

OF FLORIDA

IN THE HOUSE OF REPRESENTATIVES

Thursday, June 23, 2011

The House in Committee of the Whole House on the State of the Union had under consideration the bill (H.R. 2219) making appropriations for the Department of Defense for the fiscal year ending September 30, 2012, and for other purposes:

Mr. YOUNG of Florida. Mr. Chair, I submit the following table on H.R. 2219, a bill making appropriations for the Department of Defense for the fiscal year ending September 30, 2012.

DEPARTMENT OF DEFENSE APPROPRIATIONS - FY 2012 (H.R. 2219)
(Amounts in thousands)

AMENDMENT TO H.R. 2219, OFFERED BY CONGRESSMAN POSEY (FL-15)

HON. SANDY ADAMS

OF FLORIDA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, July 6, 2011

Mrs. ADAMS. Mr. Speaker, I rise in support of this amendment and commend my friend Congressman POSEY for his work on this jobs initiative.

Florida is home to Kennedy Space Center, the heart of NASA's space shuttle program. With tens of thousands of highly-skilled men and women currently working on the Space Coast in support of NASA's human space flight program, their jobs are threatened by the Administration's decision to end the shuttle program and cancel Constellation without a viable plan for the future of space exploration. These jobs will be lost, possibly forever, and in the midst of a housing and economic recession not seen in Florida in decades. Mr. Speaker, the truth is that the Space Coast cannot afford to lose these jobs.

That is why I am proud to stand with Mr. POSEY in support of this much needed amendment. Make no mistake, this is a jobs amendment—one that will help support families and small businesses throughout Central Florida. Specifically this amendment commits the Department of Defense to use the National Shuttle Logistics Depot to the greatest extent practicable and to assist in the preservation of our highly skilled aerospace and engineering workforce. By utilizing already existing infrastructure and a trained workforce, the government can leverage this unique skill set to advance our nation's space and defense missions at minimal cost to the American taxpayer.

The aerospace workers across the country have already been hit by an economy struggling under the tax and spend policies of the President and now, without a solid plan from NASA on what is next for the space program, the industry base will simply disappear. This is an easy way for the federal government to utilize the resources we already have to help create aerospace jobs throughout the country, without throwing away decades of technology

and laying off tens of thousands of highly skilled workers.

Mr. Speaker, when governments like China are gearing up for the next big explosion in space industry and technologies, preserving this workforce is not just about ensuring people have jobs—it is about the national security interests of our nation.

If we lose this national asset, I fear we will forever be remembered as the country that gave up the last frontier. One that looked to the stars and told the world we weren't interested.

I encourage all of my colleagues to vote in favor of this jobs amendment to help save a workforce we desperately need.

INTRODUCING AMENDMENT TO
THE DEFENSE APPROPRIATIONS
BILL

HON. BILL POSEY

OF FLORIDA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, July 6, 2011

Mr. POSEY. Mr. Speaker, I rise today to introduce an amendment to the Defense Appropriations bill that directs the Secretary of Defense to utilize to the fullest extent practicable the incredible resource that exists at the NASA Shuttle Logistics Depot, NSLD, in Central Florida.

The Department of Defense would be well served to make greater use of the facility's unique manufacturing capabilities and highly-skilled workforce for Department of Defense supply chain and repair needs. The loss of this facility and its workforce would not only be a blow to our nation's space program but represent a missed opportunity to serve U.S. national security interests.

The unique combination of technologically-advanced equipment used in the 300,000 sq. ft. NSLD facility for aerospace manufacturing, repair, and overhaul combined with the critical workforce is extremely capable of providing warfighter support for our military. Although the NSLD's operator, the United Space Alliance, USA, has procured a recent DLA contract, the work is not enough to maintain the NSLD.

This irreplaceable workforce will go elsewhere once the Shuttle Program comes to an end. The skills the NSLD facility and personnel offer are a direct match to those the DoD needs to reduce the risk of vanishing vendors and diminishing manufacturing sources in its supply chain. USA's performance-based logistics operations have maintained on-time delivery greater than 98 percent, and a customer acceptance rate of 99.99 percent.

USA has managed NASA assets of 250,000 unique part numbers valued at \$1.5 billion per year. During the Shuttle Program, over 80 OEM hardware repair or manufacturing tasks—260 Orbiter Line Replaceable Units comprised of over 7,000 line items—were transitioned to and certified by USA at the NSLD. By Shuttle Program end, more than 80 percent of all completed Orbiter Line Replaceable Unit repairs were done at NSLD by USA resources.

This Amendment is directly tied to jobs. The final flight of the Space Shuttle Orbiter, scheduled for Friday, sets the stage for a mass exodus of highly skilled labor and specialized resources from Florida's Space Coast. This void will further strain our economy and dilute the workforce and capabilities needed to sustain the technologies required to achieve the diversification of Florida's economy.

Aside from being a great asset to the Department of Defense, greater utilization of this important asset will keep the facility functioning as we look to NASA's next mission. This workforce would have been sustained as NASA transitioned to the Constellation Program, that is before it was vitiated. The retirement of the Shuttle Program presents an excellent opportunity for the Department of Defense, the Defense Logistics Agency specifically, to take advantage of the highly skilled workforce as they process and refurbish equipment returning from theater in Iraq and Afghanistan. This is an opportunity which can preserve a national asset, preserve jobs, and assist the Department of Defense in cycling through the equipment returning from combat.

And so, Mr. Speaker, I am submitting this amendment to encourage DoD to make better use of this rich resource so that it does not winnow away.
